PROBLEM STATEMENT

Students often struggle to present their academic achievements, skills and projects in a structure and professional manner. Traditional resumes fail to capture creativity, practical skills and hands-on experiences making it difficult for students to stand out in academic or career opportunities. There is a need for a digital portfolio solution that allows students to effectively showcase their completed project and growth.

PROJECT OVERVIEW

By developing this portfolio system, student will have a personalized digital identity that goes beyond a traditional CV, enhancing their chances of securing opportunities in competitive environments. It will also provide academic institutions and recruiters with a reliable and holistic view of a student's potential.

WHO ARE THE END USER ?

Primary End Users :

- *Students*

Secondary End Users :

- *Employers*
- *Recruiters*
- *Faculty*
- *Mentors*

TOOLS AND TECHNIQUES

Tools:

- *Trebedit*

Techniques:

- *HTML5*
- *CSS3*
- *JavaScript*
